

“ I like the lessons very much. I love the relaxed and friendly atmosphere during the class and the active interaction between the participants! I'd like to continue, if possible.

German course participant from Brazil ”

“ I am very pleased with didactica. This school is learning German with wit and humor. My advice? Try it out!

GERMAN LANGUAGE COURSES

*Would you like to improve your German language skills for your education or profession?
Or better master your everyday life in Germany?* Then we heartily welcome you to our German courses!

Since 1995, we've taught German to students from around the world, from beginners to near-fluent speakers, au pairs, students, foreign professionals, their relatives and many others more.

Our German courses will open doors professionally and personally. You will get to know friends and peers, and get lots of new intercultural insights.

Small groups

Unlike many other educational institutions, we consciously teach in small groups of only 2-5 participants. In the small group we can respond individually to each participant and their prior knowledge. Students are able to talk a lot and learn German quickly and efficiently.

Learning with fun

The courses take place in a relaxed and informal atmosphere. You can expect varied, lively lessons with many playful exercises to everyday situations.

Levels

We refer to the Common European Framework (A1 to C2) and use the same textbooks as the Goethe-Institut (e.g. "Themen aktuell" and "EM"). All courses optimally prepare you for the German certification exams.

Duration

Our courses comprise 60 lessons. You determine the intensity and duration (2, 3 or 5 times a week).

Beginning of the course

As soon as 2 participants have registered for a course level a new group begins. Provided you have the required skills, you can also start in a appropriate group straight away. Please visit our website for information on our current courses with places still available.

Course times

Our courses are held throughout the year, even during school and university holidays. You decide with the other participants on the day and time of your lessons.

You can find all the important information in your mother tongue at www.didactica-es.de
